

Tri-State Christian Academy Chromebook User and Procedure Guide

PROGRAM MISSION

The mission of the TCA 1:1 Chromebook initiative (one electronic device for each student) is to ensure that TCA students in grades 4 - 12 have regular, equitable access to the digital tools and resources that allow them to be successful 21st-century learners. To reach this goal, TCA will provide students with digital devices that can expand their learning opportunities beyond the walls of Tri-State Christian Academy.

We believe that giving every student a Chromebook will deepen the connection between the high-quality instruction our teachers deliver and the vast collection of resources, tools, and communities that exist in our children's digital worlds. This connection will allow students to become creators, inventors, innovators, risk takers, and problem solvers at a level not previously attainable without the use of technology. Our teachers are already skilled at integrating technology into their classrooms and now will have even greater opportunities to facilitate their student's learning beyond the traditional school day.

PURPOSE OF THIS DOCUMENT

The purpose of this guide is to provide parents and students with a thorough explanation of how the school will manage our 1:1 initiative. The success of this initiative will be strongly tied to the responsibility, ownership, and pride that our students have when they receive their Chromebook. While the school believes that technology use is critical to student success and needs to be part of the daily learning process, the ability to have a device at all times is considered a privilege that our students should not take lightly.

1. CHROMEBOOK DISTRIBUTION

Chromebooks will be assigned within the first week of each school year. Parents/Guardians and students **MUST** sign and return the TCA 1:1 Chrome Book Initiative Student/Parent Agreement document before the Chromebook can be issued to their child.
